

Vac-Lok™ Cushions

Nylon & Nylon with Indexing

CIVCO RT Technical Data Sheet

Product Name	Vac-Lok™ Cushions
Product Number	See Technical Details
General Description	Vac-Lok Cushions create a comfortable, secure and precise support around the patient when a vacuum is drawn through a self-sealing quick-release valve. Once the air is vacuumed out, the bag retains its shape and guarantees stability and reproducibility of the patient's position for up to six weeks.
Indications for use	The device is indicated to aid in supporting and positioning adult and pediatric patients undergoing radiation therapy including electron, photon, and proton treatments. The device is also used during image acquisition to support treatment planning.
MRI Compatible	MR Conditional – Product poses no known hazard in 1.5T and 3.0T MR environments. Vac-Lok valve creates minimal image artifact.
Integration	2 and 3-Pin Indexable to Couchtop (cushions with indexing bars only)
FDA Clearance	Yes
CE Marked (EU DOC)	Yes
Other Country Registrations	Available upon request
Country of Manufacture	USA

Technical Details

Primary Materials Polyurethane-coated Nylon, Polypropylene Beads

Dosimetric Properties

Location	Location Thickness	Field Size	Attenuation 6 (MV)	Attenuation 18 (MV)	Proton Water Equivalency (R80)
Center	1 in. (2.54 cm)	10 x 10	.96	.70	2.7 mm

Performance Specifications are for reference only, values may vary based on setup and equipment.

Rigidity Provides up to 90% more rigidity than prior CIVCO RT Vac-Lok (cream colored) cushions.
