What's **NEW** in Volume 7.3

TotalRT All in One Solution

Pages 30–33

The TotalRT All in One Platform is designed to quickly adapt CIVCO RT's positioning and immobilization solutions to your clinical setup and treatment needs. The platform is indexable on a couchtop, creating an affordable all in one solution and allowing seamless transition between patient treatments.

Pediatric ProForm™ Head & Neck Solution for Proton Therapy

Pages 125–130

The Pediatric ProForm Head & Neck Solution features geometry that allows for direct access to effectively treat CNS patients. ProForm accepts a dedicated thermoplastic mask designed to meet the unique requirements of proton therapy.

for Photon Therapy

Pages 60–62

The Pediatric ProForm Head & Neck Solution offers additional use to treat pediatric patients undergoing conventional photon radiotherapy.

What's **NEW** in Volume 7.3

Evolve Breastboard with Pro Wing Board™

Pages 80–81

Evolve Breastboard is a modular and lightweight solution that allows quick and simple indexing of many Wing Boards which aids in reproducibility without sacrificing patient comfort. Many hand grips, headrests and thermoplastic options easily integrate to maximize positioning options based on patient or clinical need. The board is indexable to the couchtop with or without the optional folding bottom board and features smooth adjustability between five elevation angles.

Comfort Marker 2.0 Patient Marking System

A new level of comfort for easy application of patient reference points.

Visit CIVCO RT's YouTube channel for the Comfort Marker 2.0 Video!

Comfort Marker 2.0 Patient Marking System

Improve your patient's radiotherapy journey and gain clinical efficiencies with the Comfort Marker 2.0, developed by Medical Precision B.V. This revolutionary reference point device brings a new level of comfort to the start of the patient's radiotherapy treatment.

The easy-to-use system is designed specifically for use in radiotherapy using technology popular within the permanent make-up industry. The device is carefully engineered to apply reference marks with gentle and controlled depth placement, resulting in less impact on the skin to help keep the patient relaxed and cooperative throughout the process.

Medical
Precision b.v.

Patient Benefits

- Places pigment at depth of 0.2–0.7 mm compared to common practice of 2–3 mm
- Gentle and controlled placement with less impact on the skin
- Uses high-quality ink

Safety Needle, Ink Cup, Pigment

Clinician Benefits

- Less impact on the skin keeps the patient relaxed and more cooperative throughout the process
- Fast, sterile and disposable safety needle module minimizes risk of needle stick incidents
- Safe and simple operation with clear indication of depth settings
- Charged device allows portability in the CT room

"CIVCO RT's dosimetrically matched Universal Couchtops give us more confidence in dose calculations when planning patients who will be treated on the linac. Not having to use overlays has definitely provided us additional conveniences."

Brian Smaga, Radiation Therapist, Agnesian Healthcare Cancer Care Services, Fond du Lac, Wisconsin

Universal Couchtop™ & Overlays

Safe, Efficient Treatment Planning & Imaging

The Universal Couchtop (UCT) family is comprised of strong and lightweight couchtops with low attenuation and surface dose. These couchtops are ideal for IGRT tracking with options completely free of rails and junctions in the treatment area. They are available for most CT scanners and linear accelerators, providing a dosimetrically matched treatment platform from simulation to treatment.

Warranty 5 Year Warranty on Universal Couchtop*
 CIVCO RT *One year warranty on Universal Couchtop MRI Overlays

Junction, Rail and Artifact-free

The Universal Couchtop™ is a modern and comprehensive solution for enabling advanced treatments in your clinic. Specifically designed to answer the demands of IGRT delivery, the Universal Couchtop Long Extension contains no rails or junctions in the treatment area to help facilitate better dose delivery and target coverage.

- Large treatment area
- No support mechanism to move or account for in planning
- Low attenuation and surface dose
- Prodigy™ 2 indexing at 7 cm increments
- 5 Year Warranty
- Dosimetrically Matched* for most major CT, Linac and Proton models
**VARIAN • ELEKTA • GE • PHILIPS • SIEMENS
 CANON • FUJIFILM • IBA • HITACHI • MEVION**
- Self-locking extension seam located outside of treatment field

NEW PEDIATRIC OPTION

Extensions to Treat Many Disease Sites—No Overlays Needed!

CIVCO RT's Solstice™, Type-S™ and Posifix® Thermoplastics, ONEBridge™, Body Pro-Lok™ Bridges, Respiratory Belt and many additional solutions attach directly to the Universal Couchtop.

*Contact your sales representative for more information.

Validated on Varian's TrueBeam™ and VitalBeam™ Radiotherapy Systems and Edge™ Radiosurgery System

Validated on TrueBeam and VitalBeam version 2.7 and higher software, including PerfectPitch™ 6 DoF and 4 DoF couch. Please contact your Varian sales representative for specific configuration.

Universal Couchtop Long Extensions have been validated on TrueBeam, VitalBeam & Edge. CIVCO RT positioning and immobilization devices have not been validated with TrueBeam, VitalBeam or Edge and Varian is not liable for use of these products. Universal Couchtop has not been validated on HyperArc™.

Universal Couchtop™ Extension Options

Rectangular Extensions

- MTIL6669** 36.6" (92.9 cm) Short Extension helps manage overall couchtop length when extending overlays past the end of the couch.
- MTIL6660*** 53.1" (134.9 cm) Standard Extension
- MTIL6661*** 53.1" (134.9 cm) Extension w/ embedded wires (shown in red) provides additional verification to ensure the patient is correctly aligned under Linac isocenter relative to table position.
- MTIL6676** 64.9" (164.8 cm) Extension, CT
- MTIL6673** 64.9" (164.8 cm) Extension (see page 124)

Body Pro-Lok ONE™

Kevlar Extension

Compatible with Varian's Calypso® System.

- MTIL6662*** 53.1" (134.9 cm)

Grid Extension

Helps minimize surface dose and skin reactions.

- MTIL6663*** 53.1" (134.9 cm)

Universal Couchtop Long Extensions have been validated on TrueBeam, VitalBeam & Edge. CIVCO RT positioning and immobilization devices have not been validated with TrueBeam, VitalBeam or Edge and Varian is not liable for use of these products. Universal Couchtop has not been validated on HyperArc™.

Universal Couchtop™ Extension Options

Type-S™ Extensions

Allows for direct attachment of Solstice™ SRS and Solstat™ Immobilization Systems and all CIVCO RT Type-S Thermoplastics, including the ClearVision™ open face mask designed for use with vision/camera systems.

49.1" and 53.1" Extensions do not have a central Vac-Lok™ point, therefore provides a larger unobstructed treatment region.

- MTIL6665** 39.1" (99.3 cm)
- MTIL6670*** 49.1" (124.7 cm)
- MTIL6664** 53.1" (134.9 cm)

Solstice™ SRS Immobilization System

trUpoint+ ARCH™

ProForm™

Posifix® Extensions

Allows for direct attachment of Solstice SRS and Solstat Immobilization Systems and CIVCO RT's Posifix Thermoplastics.

- MTIL6666** 39.1" (99.3 cm)
- MTIL6672*** 49.1" (124.7 cm)

Allows for direct attachment of trUpoint ARCH™ SRS/SRT System, Solstice SRS and Solstat Immobilization Systems and CIVCO RT's Posifix Thermoplastics.

- MTIL6668** 39.1" (99.3 cm)
- MTIL6671*** 49.1" (124.7 cm)

ProForm™ Extension

Designed for the unique requirements of proton therapy. May also be used for photon treatment. See page 125.

- MTIL6675K** 53.9" (136.9 cm), includes cushion forming guide and patient handles
- MTIL6682K** Pediatric, 48.7" (123.7 cm), includes cushion forming guide and patient handles **NEW**

Universal Couchtop Long Extensions have been validated on TrueBeam, VitalBeam & Edge. CIVCO RT positioning and immobilization devices have not been validated with TrueBeam, VitalBeam or Edge and Varian is not liable for use of these products. Universal Couchtop has not been validated on HyperArc™.

Universal Couchtop™ Accessories

CT Overlays

Carbon fiber one piece overlays securely lock onto a cradle, providing a surface consistent with treatment couchtops. They are lightweight and durable, allowing them to be easily removed or reinserted for use on imaging machines.

- Made of carbon fiber with a foam core
- Two-pin Lok-Bars™ allow positioning devices to be indexed to couchtop (14 cm intervals)

The following CT Overlay options are available; part numbers include 1 standard Lok-Bar:

CT Overlay for	Part #	Indexing Style	Compatible Lok-Bar	Compatible Transverse Lok-Bar
Siemens				
SOMATOM Sensation (after Aug 2004)	MTIL3013	Prodigy	MTIL3653	MTIL3652
SOMATOM Definition (PHS4 cradle)	MTIL3019	Prodigy	MTIL3653	MTIL3652

Philips				
Gemini PET/CT	MTIL3404	Interloc	MTIL3151	MTIL3152

For MR Overlay options, see page 120.

CT Accessories & Storage

Foot Extension

A simple foot extension is available to maximize range for feet-first scans. The extension allows the patient's feet to extend up to 36 cm off the end of the table. The Foot Extension is designed for feet-first CT applications and is not suitable for use as a head extension.

MTIL3006002 Foot Extension, Prodigy™

Overlay Stand

The Overlay Stand is ideal for shared CT rooms, where space is limited. The Overlay Stand creates a fast and effective way to store and protect your CT overlay between uses. The base and strap plate easily mount to the wall, allowing for quick access and out-of-the-way storage. Upper straps secure the overlay between uses.

MTIL1104

Universal Couchtop™ Storage

Long Extension Storage Device

MTIL6000SU For up to four long extensions

MTIL6100SU For one long extension (included in UCT LE package)

Lok-Bars™

Prodigy™ 2 Lok-Bar

The Prodigy 2 Lok-Bar with 7 cm spacing is for use with all Universal Couchtops™.

MTIL6050	Standard
MTIL6053	Fiberglass (recommended for use with UCT LE Kevlar Extension)
MTIL6051	Transverse (allow for offsetting patient laterally on the couchtop)
MTIL6054	MR, Three-Pin

Prodigy Lok-Bar

The Prodigy Lok-Bar with 14 cm spacing is for use with Prodigy style indexed couchtops. The Slim Prodigy Lok-Bar features smaller side profiles.

MTIL3651	for 50 cm wide couchtop
MTIL3653	Slim Prodigy for 53 cm wide couchtop

Interloc® Lok-Bar

The Interloc Lok-Bar with 14 cm spacing is for use with Interloc style indexed couchtops.

MTIL3350	for 48 cm wide couchtop
MTIL3051	for 49.5 cm wide couchtop
MTIL3850	for 50 cm wide couchtop
MTIL3151	for 53 cm wide couchtop

Exact® Lok-Bar

The Exact Lok-Bar with 14 cm spacing is for use with Exact or Interloc style indexed couchtops.

20VARSUB10	for 53 cm wide couchtop
-------------------	-------------------------

Lok-Bars™

Transverse Lok-Bar

The Transverse Lok-Bar allows for lateral movement of the two-pin system across the couchtop, providing more options in positioning the patient on the couchtop. The Transverse Lok-Bar is available in Prodigy™, Prodigy 2, Interloc®, PinnPoint™, Exact® and Medical Intelligence indexing styles.

MTIL3152	Interloc, 53 cm
MTVAR46	Exact, 53 cm
MTIL3652	Prodigy, 53 cm
MTIL6051	Prodigy 2, 53 cm
MTIL3950	Medical Intelligence

Slide Guide Lok-Bar

The Slide Guide Lok-Bar does not lock down to the indexing points along the couchtop but slides longitudinally along the couchtop. It is designed to prevent lateral movement and is useful for longer devices such as bellyboards, breastboards and Vac-Lok™ Cushions, which contract during forming.

MTVL00853	Standard, 40 – 53 cm
MTIL1006	Transverse, 48 – 53 cm

Three-Pin Lok-Bar

Three-Pin Lok-Bars allow you to index MRI compatible devices to your MRI couchtop. They also help prevent non-MRI compatible devices from being used on an MRI machine. **MRSeries™**

See pages 118–122 for MRSeries.

MTIL3351	Interloc 50 cm
MTIL3352	Interloc 53 cm
MTIL3454	Prodigy 50 cm
MTIL6054	Prodigy 2, 53 cm
MTULB001	Elekta Unity MR-Linac

"We have become a referral center for SBRT patients and have employed CIVCO RT's Body Pro-Lok system for several years. It is my opinion that reproducible immobilization and abdominal compression is vital to assist in accurate targeting of lung cancers and other localized tumors. We recently upgraded our Body Pro-Lok system to the new Body Pro-Lok ONE and added a second complete system. We find it to be more flexible and efficient, especially with larger patients, without sacrificing the precision I demand."

Ronald C. McGarry, M.D., Ph. D. University of Kentucky, Lexington, Kentucky

SBRT (Stereotactic Body Radiation Therapy)

Customizable, Efficient, Reproducible

The Body Pro-Lok ONE™, Body Pro-Lok and Rails-Only Systems provide an easy-to-use modular system for complex SBRT setups, including unique design features allowing for improved patient positioning and compression.

Each system provides full body immobilization for hypofractionation treatments and allows customized setups to meet the patient's needs, including two options (plate or belt) for reducing respiratory motion.

Visit CIVCO RT's YouTube channel for the Body Pro-Lok ONE Instructional Video

Body Pro-Lok ONE™

ONEBridge™

ONEBridge™ with Respiratory Plate

- Variable height adjustment with just one bridge
- Lateral offset ability allows the bridge and plate to adapt to the patient's natural posture and body type
- Tilting offset ability allows optimal patient positioning for enhanced gantry clearance
- Advanced latch engineered to release in less than 3 seconds for patient safety
- The Respiratory Plate places pressure at the level of the diaphragm to assist in restricting respiratory movement

ONEBridge w/ Standard Respiratory Plate

ONEBridge w/ Wide Respiratory Plate and ComfortCare Cushion

Wide Plate & ComfortCare™ Cushion

- Helps diffuse pressure across the abdominal region resulting in a more tolerable compression for the patient
- ComfortCare Cushions provide an added dimension of customized comfort, forming to the contours of the patient

ONE Respiratory Belt

Provides pneumatic compression and immobilization to the abdominal region for SBRT treatments

For customization options, see pages 23 – 27.

Body Pro-Lok ONE™ Integration

Universal Couchtop™

- Body Pro-Lok ONE positioning devices connect to the Universal Couchtop, allowing customized setups with bridges that secure directly to couchtop
 - The Universal Couchtop is available for Linac and CT, providing an environment in simulation that is reproducible and dosimetrically matched in treatment
- See pages 8–11 for details.

ONEPlatform™

- Universal Couchtop profile and indexing options provide for seamless integration of CIVCO RT's positioning devices
 - Indexing holes and Transverse Lok-Bar™ allow lateral offset of platform for optimal clearance
 - Kevlar material is MR Safe
 - Lightweight and 72" long
- MRSeries™

Elekta iBEAM® evo Couchtop

Adapters

Allows Body Pro-Lok™ Bridges and Respiratory Belt to connect directly to the Universal Couchtop™ or TotalRT Platform.

MTIL6615 Type 2 & 3 Bridge Adapter, Qty 2 (left photo)

MTIL6616 Type 1B Bridge & Shoulder Restraint Bridge 2 Adapter, Qty 2 (middle photo)

MTIL6620 Respiratory Belt Adapter, Qty 2 (right photo)

Wing Boards & Headrests

See page 87 for additional Wing Board™ options

See pages 69 – 72 for headrest options

Body Pro-Lok™ Bridges

Body Pro-Lok Bridges with Respiratory Plate

- Three bridge options accommodate different patient sizes and provide immobilization from above
- The Respiratory Plate places pressure at the level of the diaphragm to assist in restricting respiratory movement

Body Pro-Lok™

Standard Plate

Wide Plate & ComfortCare™ Cushion

- Helps diffuse pressure across the abdominal region resulting in a more tolerable compression for the patient
- ComfortCare Cushions provide an added dimension of customized comfort, forming to the contours of the patient

Wide Plate, ComfortCare Cushion and Hand Pump

Respiratory Belt

Provides pneumatic compression and immobilization to the abdominal region for SBRT treatments

For customization options, see pages 23 – 27.

Body Pro-Lok™ Integration

Universal Couchtop™

- Body Pro-Lok positioning devices connect to the Universal Couchtop via adapters, allowing customized setups with bridges that will secure directly to the couchtop
- The Universal Couchtop is available for Linac and CT, providing an environment in simulation that is reproducible and dosimetrically matched in treatment

Carbon Fiber & Kevlar Platforms

- Provides seamless setup of patient from imaging/simulation to the Linac unit
- Compatible with existing CIVCO RT positioning equipment via standard two-pin (Carbon Fiber, left image) and three-pin (Kevlar, right image) indexing
- Provides low attenuation with homogeneous design for planning consistency

Increase Efficiency, Position Devices Easily and Gain Confidence in Patient Setup

The TotalRT All in One Platform is designed to quickly adapt CIVCO RT's positioning and immobilization solutions to your clinical setup and treatment needs. The platform is indexable on a couchtop, creating an affordable all in one solution and allowing seamless transition between patient treatments.

TotalRT
All in One Solution

Increase Efficiency and Position Devices Easily

TotalRT All in One Platform NEW

- Easily indexable on CT, MR and photon treatment tables with two Lok-Bars™
- Large, artifact-free and homogeneous treatment area for precise dose delivery, including hypofractionation
- Repeatable positioning of CIVCO RT devices, even between treatment rooms
- A single therapist can carry and index to couchtop
- Wall storage device allows effective way to store and protect the platform
- Lightweight: 7.3 kg / 16 lbs
- Dimensions (cm): 201.3 (L) x 61.9 (W) x 3.5 (H)
- Platform is MR Safe

MRSeries™

TotalRT Platform

TRT100	201.3 cm, Glass Fiber
MTWBL001	Type-S™ Lok-Bar

Universal Couchtop™ Profile, Prodigy™ 2 (7 cm) Indexing

Directly attach devices to the platform or secure using Lok-Bars™.

Allows Use of Wing Boards™ in Head & Neck Area

Type-S™ Lok-Bar allows for indexing of any Three-Pin Wing Board or the Monarch™ Overhead Arm Positioner.

TotalRT Integration

Flexibility in SRS, Head & Neck, Brain and Craniospinal Setups

- Directly attach all Type-S™ solutions, including Solstice™ SRS, Solstat™, Customizable Head Support, head only and head, neck & shoulder thermoplastics.
- TotalRT allows ideal access to head & neck area when cantilevered off the couchtop.
For the Solstice™ SRS Immobilization System, see pages 34–37.
For Head & Neck Solutions, see pages 39–74.

Body Pro-Lok ONE™ SBRT Immobilization

Body Pro-Lok ONE positioning devices connect to the TotalRT, allowing customized setups with bridges that secure directly to platform.
For SBRT Solutions, see pages 19–29.

TotalRT packages are available. Contact your sales representative to learn more.

"We are very satisfied with the Solstice product. The match data of CBCT's made prior and after the treatment indicates high accuracy and stability. The pitch correction functionality gives us extra reassurance in positioning accuracy of the patient especially in treatment of multiple metastases using single isocenter."

Dr. Chin Loon Ong, Medical Physicist, Department of Radiotherapy Haga Hospital, Den Haag, Zuid Holland

SRS/SRT (Stereotactic Radiosurgery/Radiotherapy)

Non-invasive immobilization for precise treatment

The Solstice™ SRS Immobilization System brings leading-edge innovation and advancement of non-invasive, head and neck treatment with its unique corrective pitch capability and positioning flexibility. Effective immobilization with trUpoint ARCH can also be accomplished with multiple points of fixation for an accurate and secure hold.

Visit CIVCO RT's YouTube channel for the channel for the Solstice and trUpoint ARCH Instructional Videos

Solstice™ SRS Immobilization System

The Solstice SRS Immobilization System provides unique corrective pitch capability and positioning flexibility for submillimeter accuracy to treat multiple lesions with a single isocenter. The system is comprised of a head support, customizable cushion and dedicated thermoplastic mask designed for secure and simple attachment. These components create a highly customizable and comfortable head and neck immobilization system for precise treatment to improve patient outcomes.

- Midline thermoplastic mask attachment provides increased rigidity and minimizes shrinkage to enhance patient comfort
- Highly conformal to the patient when using a customizable cushion and dedicated thermoplastic mask
- Unique thermoplastic frame provides easy to use, secure and quiet mask attachment
- Glass Fiber version approved for MR. MRSeries™

Variable pitch capability provides increased setup options in CT simulation, MR imaging (with glass fiber MR version) and corrective positioning flexibility during treatment setup

Solstice™ SRS System Customization

Carbon Fiber with ClearVision™ Thermoplastic and Precise Bite

trUpoint ARCH™ SRS/SRT Immobilization

Immobilization with trUpoint ARCH is accomplished using multiple components – a custom head support, bite tray, thermoplastic mask and nasion cushions – allowing a truly custom hold for superior results. Each of these components are designed specifically for SRS patient immobilization and each trUpoint ARCH setup is specific to the individual patient, ensuring excellent reproducibility from fraction to fraction.

- Less than 1 mm of patient movement permitted during intrafraction immobilization testing (based on the 90% confidence intervals of the vertical, longitudinal and lateral mean intrafraction values)
- Frameless arch design provides a secure hold with no surgical attachment to the patient
- Interfraction patient positioning tests show equivalency to higher-priced competitive systems
- When used with CIVCO RT's Universal Couchtop™, setups are dosimetrically matched from simulation to treatment

trUpoint⁺
ARCH™

trUpoint ARCH Starter Kit MRSeries™

Kit includes: trUpoint ARCH, Acrylic Posifix Baseplate, Storage Base, Posicast® Thermoplastic (x10), Individual Head Support (x10), Bite Putty (12 applications), Bite Cups (x12), Bite Trays (x12), Putty Dispenser, Nasion Cushions (x12).

*Putty Dispenser is MR Unsafe and must be used for setup outside of the MR environment.

Head & Neck

Enhanced Positioning & Immobilization

There are three essential components to a head & neck system:

- Thermoplastic masks, providing positioning and immobilization from imaging through treatment
- Headrests, providing enhanced repositioning, accuracy and patient comfort
- Platforms, Extensions, Baseplates or Overlays, providing the foundation for the system

Choosing a Head & Neck Positioning System

Type-S™

The Type-S system was designed for IMRT and conformal treatments and is intended to provide minimal attenuation throughout 360° of treatment angles. Type-S thermoplastic masks offer the greatest variety of IMRT patterns, materials and frame type. Masks are sold in boxes of five and are disposable unless otherwise noted. [Pages 43–50.](#)

Compatibility	CT, MR, Photon
Thermoplastic Material	Standard White, ZENTEC™
Special Features	Pre-cut eye and mouth Open-face, surface tracking IMRT Reinforced™ Larynx extension Neck relief Pediatric option

Frame Continuous

Uni-frame®

The Uni-frame system is CIVCO RT's legacy line and has become an industry standard solution for head-only thermoplastic masks. They are available in a variety of standard and IMRT patterns, including Tranquility Series masks and the highly conformal ZENTEC™ material. Masks are sold in boxes of five and are disposable unless otherwise noted. [Pages 51–54.](#)

Compatibility	CT, MR, Photon
Thermoplastic Material	Standard White, ZENTEC
Special Features	Pre-cut eye and mouth Open-face, surface tracking IMRT Reinforced

Frame Continuous

Posifix®

Posicast® thermoplastic masks were specifically formulated for use with CIVCO RT's Posifix Patient Positioning System. They are drape-style which requires less stretching, therefore resulting in less shrinkage. Drape-style masks allow for closer attachment of the mask to the patient. Masks are sold in boxes of ten and are disposable. [Pages 55–59.](#)

Compatibility	CT, MR, Photon
Thermoplastic Material	Posicast
Special Features	Open-face Larynx extension Smooth coating Pediatric option

Frame Drape

NEW

Pediatric ProForm™

The ProForm Head & Neck system was developed for proton therapy, but offers additional use to treat pediatric patients undergoing conventional photon radiotherapy. ProForm accepts a dedicated thermoplastic mask, available in many IMRT patterns and design styles. Masks are sold in boxes of five and are disposable. [Pages 60–62.](#)

Compatibility	CT, MR, Photon, Proton
Thermoplastic Material	Standard White
Special Features	Pre-cut eye and mouth Open-face, surface tracking IMRT Reinforced Pediatric option

Frame Continuous (Head Only),
Continuous to Drape (Head,
Neck & Shoulders)

Material Types

ZENTEC™ requires less heating time than standard white thermoplastics and have an established reputation of being highly conforming masks. The 2.4 mm thickness masks provide a lighter feeling, which offers a more pleasant experience for anxious patients. The 3.2 mm thickness offers a similarly conforming mask with the added benefit of being CIVCO RT's most rigid continuous frame mask.

Waterbath compatible.

Standard White features standard perforation and are available in a variety of lengths and thicknesses. The 3.2 mm thickness is intended for a strong hold. The 2.4 mm thickness provides a lighter feeling which offers a more pleasant experience for anxious patients. Narrower, reloadable frame and masks are available to accommodate pediatric patients.

Waterbath and Dry Heat Oven compatible.

Posicast®-Lite feels like a traditional thermoplastic with a smooth spray coating on both sides of the mask. They have a drape-style design that requires less stretching which results in minimal shrinkage during cooling.

Posicast-Plus has a soft polyurethane coating on the patient-contacting side for comfort, while the other side features a smooth spray coating to facilitate marking treatment fields on the mask. It is a drape-style design that requires less stretching which results in minimal shrinkage during cooling.

Waterbath and Dry Heat Oven compatible.

Special Features

FreedomView™ features pre-cut eye and mouth openings, increasing patient comfort and setup efficiency

ClearVision™ 2 are open face masks designed to use with vision/camera systems; compatible with Vision RT's Align RT® camera system

IMRT Reinforced™ feature a combination of perforated and solid thermoplastic in the mask design to provide rigidity and secure immobilization for IMRT treatments. By providing solid bands in areas where a secure hold is essential while maintaining perforation elsewhere, these masks provide a balance of immobilization and comfort.

Type-S™ Extensions, Platforms & Baseplates

Universal Couchtop™ Long Extension

The Universal Couchtop Long Extension self-locks onto the Universal Couchtop, allowing the thermoplastic to connect to the couchtop. See pages 11 – 14 for more details.

MTIL6665 Length: 39.1" (99.3 cm)

MTIL6670 Length: 49.1" (124.7 cm)

MTIL6664 Length: 53.1" (134.9 cm)

Varian Style Extension

The Varian Style Extension hooks easily on the superior end of a Varian style endplate. An optional reloadable head, neck & shoulder frame for Type-S thermoplastics is available.

MTCFHNV

TotalRT All in One Platform

The TotalRT All in One Platform is designed to quickly adapt CIVCO RT's positioning and immobilization solutions to your clinical setup and treatment needs. See pages 30–33 for more details.

TRT100 **NEW**

Variable Axis Baseplate with Prone Face Cushion (sold separately)

Patient Setup with Variable Axis Baseplate and Prone Face Cushion

Variable Axis Baseplate with optional Adapter and Prone Headrest

Type-S™ Variable Axis Baseplate

The Variable Axis Baseplate integrates with any Type-S extension or overlay to provide a tilting movement with patient fixation in either prone or supine positions. The unique variable axis design allows for natural head and neck movement and features a rotating knob to lock the baseplate into an angle position from 0°–30° in supine position and 12.5°–32.5° in prone position. The baseplate accommodates Type-S head only thermoplastics and accepts the Prone Face Cushion or the Posifix® Prone Headrest via an adapter and shim. See pages 69 – 71 for supine headrest options.

Type-S™ Overlays

iBEAM® Overlay Adapter

Created for the Medical Intelligence iBEAM and iBEAM EVO couchtops. The overlay is cantilevered, providing minimal attenuation in the area of treatment.

108073

Overlay Board

Extends off the end of the treatment couch. An optional reloadable head, neck and shoulders frame for Type-S thermoplastics is available.

20CFHNSUB7 Overlay (no Vac-Lok™ indexing hole for larger unobstructed treatment region)

20CFHNSUB2 Overlay (with Vac-Lok indexing hole)

20CFHNSUB1P ABS Reloadable Type-S Frame Only

MRI Type-S™ Overlay

Made of fiberglass with a foam core for use in MR environments. The MRI Overlay is lightweight and three-pin indexable. **MRSeries™**

MTMRHNTYPES (left image)

MTMRHNPN Narrow (right image)

Fixator™ Shoulder Suppression System

The Fixator Shoulder Suppression System is designed to enhance the benefits of the Type-S system. The Fixator extends off the couchtop and includes adjustable padded positioners to gently cup the patient's shoulders, capturing and positioning them out of the treatment field. Indexed nomenclature allows for easily recorded shoulder repositioning. Type-S head-only IMRT Reinforced Thermoplastic™ masks are recommended for use with this system.

Posifix Variable Axis Baseplate

The Variable Axis Baseplate integrates with any Posifix extension, overlay or baseplate to provide a tilting movement with patient fixation in either prone or supine positions. The unique variable axis design allows for natural head and neck movement and features a rotating knob to lock the baseplate into an angle position from 0°–30° in supine position and 12.5°–32.5° in prone position. The baseplate accommodates Posifix head only thermoplastics and accepts all supine and prone Posifix headrests (sold separately).

See pages 69–71 for headrest options.

- 107065 Posifix Variable Axis Baseplate, Carbon Fiber

iBEAM® Overlay Adapter

Created for the Medical Intelligence iBEAM and iBEAM EVO couchtops. The overlay is cantilevered, providing minimal attenuation in the area of treatment.

Solstat™ Immobilization System

The Solstat system is comprised of a rigid head support, customizable cushion or non-custom headrest and a dedicated thermoplastic mask designed for secure and simple attachment. These components create a highly customizable, comfortable and rigid setup for accurate head and neck treatments.

- Midline thermoplastic mask attachment provides increased rigidity and minimizes shrinkage to enhance patient comfort
- Highly conformal to the patient when using a customizable cushion and dedicated thermoplastic mask
- Unique thermoplastic frame provides easy to use, secure and quiet mask attachment
- May be used in an MR environment **MRSeries™**

Visit CIVCO RT's YouTube channel for the Solstat Instructional Video

M.C.Inspire Baseplate co-developed with Miami Cancer Institute

The M.C.Inspire Baseplate uniquely integrates and aligns ViewRay's MRIdian head and neck coils with the high precision positioning provided by CIVCO RT's Solstat™ and Solstice™ SRS Immobilization Systems. The acrylic baseplate features recessed receptacles that properly position and secure the posterior head and neck coil below the head immobilization system. Together, these components form an integrated system specifically designed to optimize head and neck setup, imaging and treatment with the MRIdian MRI-Guided Linac. **MRSeries™**

Optimized positioning of the posterior head & neck coil and CIVCO RT's head immobilization system

- Easy and efficient transport, setup and storage of the system components on and off the couchtop
- Designed to complement MRIdian's low-field-strength magnet
- Dosimetrically Accurate (calculated TPS dose compared to measured dose in the Linac)*

The baseplate properly positions and secures the head & neck coil below the head immobilization system.

M.C.Inspire Baseplate & Solstat Starter Kit

Kit includes: Baseplate, Three-Pin Lok-Bar, Solstat Head Support, ClearVision open-face thermoplastic masks, Standard size (x10), 20 x 35 cm Chamfered AccuForm™ Cushion (x10)

CHS14SGK

M.C.Inspire Baseplate & Solstice Starter Kit

CHS18MRSGK

Customizable Head Support

The Customizable Head Support is a shell and customizable cushion system. The unique shape of the shell was designed to encourage the cushion to return the patient to a repeatable position from fraction to fraction. **MRSeries™**

- Allows more support under patient's neck for less superior-inferior movement (pitch)
- Provides enhanced comfort so patient is less likely to move during treatment
- Two small pins centered inside the shell provide fixed, repeatable points while preventing the cushion from moving
- Deep "bowl" shape provides a deeper head capture than using a cushion alone or standard head supports
- Compatible with Vision RT's Align RT® camera system when used with ClearVision™ Thermoplastic

visionrt COMPATIBLE

GrayDuck Oral Positioning Stents

GrayDuck oral positioning stents are currently the only custom fitted bite block system that can position the tongue in one of several positions; laterally (left or right), depressing (downward) or a combination thereof. **MRSeries™ ProtonSeries™**

- Tongue-displacing and immobilizing oral stent
- Capable of providing repeatable tongue deviation and immobilizing in several directions
- Designed to provide repeatable immobilization and tissue sparing during radiotherapy
- Ergonomically developed to be a quick, easy-to-fit custom oral stent

Precise Bite™

The Precise Bite attaches easily to a thermoplastic cast and conforms to the teeth and/or maxilla to aid in effective and repeatable positioning. The Precise Bite with tongue depressor assists in tongue displacement and provides an airway opening for easy breathing. **MRSeries™**

- Softens in warm water and comfortably conforms to the patient's dental contours
- Precise Bite docking plate simply snaps on top to secure the bite to the thermoplastic mask
- Warmer softens Precise Bite without a microwave or water bath

AccuForm™ Cushions

AccuForm Cushions are ideal for high-precision head and neck treatments when enhanced comfort, stability and repositioning accuracy are key.

MRSeries™ ProtonSeries™

- Soft, cloth-covered pillow contains tiny beads coated in water-curable resin
- Cushion becomes pliable when sprayed with water, allowing formation around patient's contours, including custom pitch and rise
- Cushion forms a rigid, comfortable custom mold when dry
- Single patient use
- 15 x 20 cm cushion recommended when customized fit is needed on a standard headrest
- 20 x 25 cm, 20 x 45 cm and Type-S™ cushions can be used as stand-alone cushions
- 20 x 35 cm chamfered cushion features clipped cushion corners that provide support without interfering with the thermoplastic

AccuForm Positioner

An AccuForm Positioner can be used for indexing an AccuForm cushion to Uni-frame® and Type-S baseplates.

MTACL001	
----------	--

AccuForm Shim

The AccuForm Shim is a flexible, thin foam piece that provides a small height offset above the customized patient AccuForm. The shim is intended to be placed onto the formed AccuForm cushion, and prior to forming the thermoplastic mask.

Using the shim can counteract suspected mask shrinkage and/or patient swelling, increasing patient comfort while maintaining ideal immobilization.

AccuForm Positioner

AccuForm Shim

Individual Head Support

The Individual Head Support provides customized head and neck positioning during radiation therapy treatment and diagnostic procedures. This head support assists in maximizing fixation, stability and comfort while minimizing longitudinal, lateral and rotational movement of the patient.

- Made from a specially shaped impression foam combined with fabric-coated thermoplastic
- Gives clinicians the power to customize position and support to each patient
- Can be used with traditional thermoplastic masks, as well as more rigid head frames to deliver stereotactic radiation therapy and radiosurgery
- Available for use with Posifix® extensions, baseplates and overlays

MTIHS01	Posifix, Natural Position MRSeries™
MTIHS02	Posifix, Hyperextension

Head & Neck Vac-Lok™ Cushions

Vac-Lok cushions create a rigid and secure support around the patient when a vacuum is drawn through a self-sealing quick release valve, providing comfortable support of the head and neck as well as the upper shoulders. **MRSeries™ ProtonSeries™**

- Reusable for ultimate cost-effectiveness
- Protective material coating provides greater cleanability than previous generation bags
- Available in a variety of shapes and sizes in two durable finishes: urethane or nylon
- Nylon Type-S cushion is available in two sizes and is indexable
- Cleared for use in proton therapy

VL37	50 x 70 cm "T" Vac-Lok Cushion

Shims

Shims are for use with CIVCO RT's headrests and systems.

MTSHIMS	Silverman
MTSHIMT	Timo
MTSHIM01	Type-S Head-Only
MTSHIM01S	Type-S Head, Neck & Shoulders

Headrest shape may have slight variations; the same headrest should be used for a patient throughout setup and treatment cycle. See headrest compatibility chart on page 72.

Headrests

Posifix® Supine Headrests

Posifix headrests are made of low density polyethylene foam.

301201	1, Similar to #2 with patient shift in superior direction
301202	2, Natural position
301203	3, Slightly hyperextended
301204	4, Hyperextended
301205	5, Chin down toward chest
305001	Set of five

Posifix Contoured Headrests

The Posifix Contoured Headrests feature colored bottoms for easy identification and are wider and higher than the standard Posifix supine headrests, completely surrounding the back of the head. This design is intended to encourage less lateral, longitudinal and rotational movement during setup and treatment.

301023	Yellow bottom, Slightly hyperextended
301024	White bottom, Hyperextended
301022	Orange bottom, Natural position
301234	Set of three

Posifix Wide Headrest

A special wide headrest, made of low density polyethylene foam, is available in a natural position design.

301008A	
---------	--

Headrest shape may have slight variations; the same headrest should be used for a patient throughout setup and treatment cycle. See headrest compatibility chart on page 72.

Headrests

Posifix Prone Headrest

The Prone Headrest is specially designed for treatments with the patient in the prone position. The 3-D shaped contour supports chin and forehead and therefore assists in creating a reproducible and comfortable position.

301025BLK	
-----------	--

Posifix Pediatric Headrests

Designed for use with pediatric patients, both the prone and supine headrests are available in bright, glossy colors.

301026	Supine
301027A	Prone

Spacers & Wedges

Spacers & Wedges are available in a variety of heights and angles for use with the Posifix® Patient Positioning System to provide positioning offset of the patient for unique treatment needs. They can accommodate the use of all Posifix style headrests, Extended Stop Headrest, Posifix Customizable Head Support and Posifix Individual Head Support.

107101	Wedge, 2.5°
107102	Wedge, 5°
107103	Spacer, 20 mm
107104	Spacer, 30 mm
107106	Spacers & Wedges. Set of four includes: Wedges 2.5° and 5°, Spacers 20 and 30 mm

Headrest Adapters

Headrests provide enhanced repositioning, accuracy and patient comfort. CIVCO RT headrests are compatible with our three head & neck patient positioning systems (Type-S, Posifix or Uni-frame) and Wing Boards directly or via an adapter.

- 301035* MR Posi-S Adapter **MRSeries™**
- 301029* MR Posi-S Adapter with Backplate **MRSeries™**
- - With use of Type-S Shim (see page 69)
- MT350400 Timo Adapter Plate (see page 85)
- - No Adapter required

*The 301035 and 301029 do not provide equivalent setups. Customers using 301029 should reorder that part number. New customers should order 301035.

Shoulder Retractor

The Shoulder Retractor is often used with thermoplastic-based fixation systems. Retraction is especially beneficial for shoulder clearance when opposing lateral fields are used to treat the neck.

- Constructed of durable plastic with a large footboard and nylon tension ropes with ball-in-socket locking, allowing for selectable tension in 1/2" increments
- Available with Handle Grips, Sherpa Wrist Loops or washable Nylon Wrist Loops

- MTSR01 Retractor with Handle Grips (left photo)
- MTSR02 Retractor with Sherpa Wrist Loops (middle photo)
- MTSR03 Retractor with Nylon Wrist Loops (right photo)

Couchtop Cover

The Couchtop Cover is a comfortable elevation mat that matches the slope of the Posifix or Posirest™ Baseplate for a seamless transition.

MRSeries™

- Cover is the same thickness (1.5 cm) as the Posifix and Posirest baseplates
- Available in 120 and 46 cm lengths
- Handle for convenient carrying and hanging

- 301090 120 x 46 cm
- 301091 46 x 46 cm

Water Baths

Water Bath

C-Qual M™ with Monarch™ Overhead Arm Positioner

The C-Qual M Breastboard features integration with the Monarch Overhead Arm Positioner, providing an efficient approach for arms-up positioning and allowing proper superior/inferior adjustment of the board to the patient which helps reduce patient slide.

- Contoured cutouts in shoulder region help reduce attenuation during posterior axillary boosts
- Two hand grip designs allow for customized placement of each hand and arm
- Easy on/off latch system of the Monarch Overhead Arm Positioner eliminates need for tools to make adjustments
- Optical Surface Monitoring System (OSMS) compatible
- Elevation Supports secure angles from 5° to 25° with nine different tilt positions
- Compatible with Posicast® Head-Only and Chin Strap Thermoplastics (with Monarch or board-only), Breast Support Thermoplastics, Posifix® Headrests and Vac-Lok™ Cushions

Featuring Individual Hand Grips

Mask can attach directly to incline board

Evolve Breastboard

NEW

The Evolve Breastboard is a lightweight solution that allows quick and simple indexing of many Wing Boards™ which aids in reproducibility without sacrificing patient comfort. Many hand grips, headrests and thermoplastic options easily integrate to maximize positioning options based on patient or clinical need.

- CT, MR, photon and SGRT treatment compatible
- Indexing marks allow reproducible setup
- Side scales assist with alignment
- Compatible with Breast Support Thermoplastics (page 78) and Wing Board Vac-Lok Cushions (page 79)
- Indexable to TotalRT Platform or other couchtops via two or three-pin Lok-Bar™
- Indexable with or without the optional bottom board

Simple Elevation Adjustment

Support bar secures the board from 5° to 15° with five adjustable elevation angles. Simply lift the superior end of the board and push the handle to adjust the elevation.

Integrated GlideTrack

Allows simple positioning of the Pro, Extended and Standard Wing Boards to accommodate patients of varied torso lengths.

A Modular Approach to Breast & Thorax Positioning

Evolve Slant Board

- OAP200

See page 87 for additional Wing Board options.

C-Qual™ Breastboard

The carbon fiber C-Qual Breastboard is lightweight, designed for patient comfort and features a low-attenuating IGRT treatment zone. The C-Qual's advanced features bring efficiencies to breast setup and treatment.

- Elevation Supports secure angles from 5° to 25° with nine different tilt positions
- Advanced arm supports, with no interference in the supraclavicular region
- Compatible with the Monarch™ Overhead Arm Positioner
- Compatible with Posicast® Head-Only Thermoplastics (pages 57–58) and Breast Support Thermoplastics (page 78)
- Special wide headrest included

MT401	C-Qual with Monarch. Includes "M" Handle and Tracks compatible with the Individual Hand Grips (hand grips sold separately).
MT400	C-Qual with Arm & Wrist Supports
OAP100	Monarch (upgrade kit for MT400). Includes "M" Handle and Tracks compatible with the Individual Hand Grips (hand grips sold separately).
OAP120	Monarch Thermoplastic Frame
013156	Wall Storage Device

C-Qual with Monarch Overhead Arm Positioner

C-Qual with Arm & Wrist Supports

New Horizon™ Prone Breastboard

The New Horizon Prone Breastboard assists in providing accessible, comfortable and reproducible patient positioning for prone breast treatments. The modular design and variety of accessories provide options for many prone breast setup challenges, allowing customized patient setups and meeting clinical needs for treatment.

- Solid and open contralateral wedges provided to meet individual patient needs
- Patient-friendly design, with contoured foam and an adjustable massage-style face cushion
- Indexable to the couchtop, assuring its orientation to lasers and isocenter is repeatable and known
- Scale rulers allow for easy verification of the longitudinal and lateral position of the patient
- Overall height can be adjusted through the use of 3 cm spacers
- Reversible breast section allows for treatment of either breast with a simple 180° turn
- Three simple-to-separate parts allow for a lighter board and easier storage and transport between treatment rooms
- The unique curved board rises to meet the patient halfway for less climbing and safe positioning

MTHPBB01	New Horizon
MTHPBB01K	New Horizon with Type 1B Bridge and Clam-Lok™ Cushion
MTHPBB103	Head Cushion Covers, Qty 50

See page 79 for Monarch Individual Hand Grip Options.

MT-350

The MT-350 Breastboard combines reproducible breast positioning with efficient, comfortable patient setups. Its lightweight construction including carbon fiber provides ease-of-use with repeatable support.

- Grid treatment panels provide rigid, low-attenuating support
- Positive locking system offers angles in 2.5° increments from 5° to 20° and an angle of 25°
- Indexable hip stop prevents patients from sliding
- Wide variety of arm supports and headrest accessories available separately (see page 85)
- Compatible with Standard, Extended and Tapered Wing Boards™ and Breast Support Thermoplastics (see page 78)

Featuring Arm & Wrist Supports

MT350N MT-350 with Round Head Cup and Hip Stop

Thorawedge™

The Thorawedge is a unique positioning device allowing the patient to incline at multiple fixed angles, creating a comfortable position during diagnostic procedures.

The Thorawedge was co-developed with the Department of Radiotherapy of the University Medical Center in Utrecht, The Netherlands.

- Consists of two wedges (5° and 10°) and a comfortable arm support
- Wedges can be used separately or combined to reach a 15° angle. Additional 5° wedges can be added to form 20° and 25° angles
- Headrest and lumbar support can be indexed, assuring a reproducible patient position throughout the course of treatment
- Large side cut-outs allow for a full range of treatment angles

301080 Thorawedge

301081 Additional 5° Wedge

301082 Additional 10° Wedge

MT-350 Accessories

Bi-Axial Arm Support System™

The Bi-Axial Arm Support System consists of both an arm and wrist support for comfortable and reproducible positioning for the upper and lower arm. The padded supports index to a variety of reproducible positions. Purple arm and wrist supports differ from the previous blue supports. Please contact your sales representative for additional information.

MTTAS2R Right Arm Support

MTTAS2L Left Arm Support

MTTWS2S Wrist Support

Wing Boards™

The Extended, Standard and Tapered Wing Boards can be mounted to the MT-350 Breastboard for additional arm support. See page 87 for more information on Wing Boards.

Round Head Cup & Gel Head Cup

The vinyl covered foam round head cup comes standard on the MT-350 Breastboard. It indexes to any of the numbered positions on the top of the breastboard. The gel head cup provides enhanced patient comfort. It features a baseplate that indexes to any of the numbered positions on the top of the breastboards. They are also compatible with the Pro Wing Board.

MT250SUB11 Round Head Cup (left image)

MT250SUB10 Gel Head Cup (right image)

Adapter Plate for Timo Headrests

Timo Headrests are constructed of durable polyurethane foam with a washable coating. Six various heights and contours offer a range of neck angulations. The clear adapter plate provides compatibility with the MT-350 with the use of a Lexan Plate.

See page 69 for more information on Timo Headrests.

MT350400

Delrin Hand Grips

Delrin Hand Grips provide an affordable option for quick patient setups for overhead arm positioning.

MT2504

Posirest™-2

The Posirest-2 Arm Support is designed to create proper and comfortable upper extremity positioning.

- Kits include: Posirest Carbon Fiber Baseplate, Wide Headrest, High Arm Support, Cranial Arm Support and Adjustable Arm Supports (x2)
- Arm supports can be adjusted in several positions and are fitted with comfortable padding
- High Arm Support allows patients who cannot reach back to rest their arms overhead

106521 Posirest-2 w/ Standard Arm Supports

106522 Posirest-2 w/ Large Arm Supports

Posirest™-2 Accessories

Rigid Adjustable Arm Supports

Rigid Adjustable Arm Supports have fixed heights perfect for use with the cranial arm support. The comfortable padded arm cup is rotatable and supports the upper arm regardless of which of the five different angle settings is used. For larger patients, this arm support is available with a large arm cup.

106020 Standard, Qty 2

106048 Large, Qty 2

Height Adjustable Arm Supports

Height Adjustable Arm Supports feature rotatable arm cups and three indexable height options for added patient comfort.

106025 Standard, Qty 2

Cranial Arm Support

A comfortable position of the forearms is achieved with a cranial arm support. It can be combined with the Rigid Adjustable Upper Arm Support to provide a complete arm support system.

106024

Wide Headrest

Wing Boards™

See page 79 for the Monarch™ Overhead Arm Positioner

See page 81 for the Pro Wing Board

See pages 69 – 72 for compatible headrest options

Extended Wing Board

The Extended Wing Board is 22.5" (57 cm) wide, constructed of durable, lightweight ABS and can be used with a T- or U-Grip handle. Its extended length allows for additional arm positioning flexibility. It is CT and MR compatible and indexable for enhanced reproducibility from imaging through treatment. It easily attaches to the Evolve and MT-350 breastboard. **MRSeries™**

MTWB08T w/ T-Grip (shown)

MTWB08U w/ U-Grip

Standard Wing Board

The Standard Wing Board is 22.5" (57 cm) wide, constructed of durable, lightweight ABS and features Delrin post hand grips. It is CT and MR compatible and indexable for enhanced reproducibility from imaging through treatment. It easily attaches to the Evolve and MT-350 breastboards. **MRSeries™**

MTWB09

Tapered Wing Board

The Tapered Wing Board is 22" (56 cm) wide and has angled wings, providing patient comfort and support. Its narrow profile is ideal for CT and PET bores. It is MR compatible and available with a T- or U-Grip Handle. It easily attaches to the MT-350 breastboard. **MRSeries™**

MTWB10T w/ T-Grip

MTWB10U w/ U-Grip (shown)

Grip Options

Both the T-Grip and the U-Grip are available individually. Compatible with the Extended and Tapered Wing Boards. **MRSeries™**

MTGBSUB1 T-Grip

MTGBSUB3 U-Grip

Breast & Thorax Vac-Lok™ Cushions

Vac-Lok cushions create a rigid and secure support around the patient when a vacuum is drawn through a self-sealing quick-release valve. Cushions are available in two durable finishes: nylon and urethane. Nylon cushions can be ordered with indexing bars attached. Cleared for use in proton therapy. MRSeries™ Proton Series™

Arms Up Vac-Lok, 105 cm long, 28L Fill

"Patients report how easy the Chabner XRT Radiation Bra is to put on, also that it fits comfortably, even with DIBH patients. The bra has been a good aid for our department and provided a very promising alternative to breast prone treatment."

Alessandro Taccogna, Radiation Therapist MR(T) at Kantonsspital Graubünden Hospital & Health Care, Chur, Canton of Grisons, Switzerland

Chabner XRT® Radiation Bra

Offers optimal breast support and reproducibility

The Chabner XRT Radiation Bra provides optimal breast support during simulation, planning and radiation treatment, including proton. The bra can also be used for breast support during other radiologic procedures such as CT, MRI and diagnostic X-rays.

Visit CIVCO RT's YouTube channel for the Chabner XRT Instructional Video

Chabner XRT® Radiation Bra

The Chabner XRT® Radiation Bra provides optimal breast support during simulation, planning and radiation or proton treatment. The bra can also be used for breast support during other radiologic procedures such as CT, MRI and diagnostic X-rays. **MRSeries™ ProtonSeries™**

- User-friendly for patient, therapist and physician
- Made of lightweight, advanced materials providing enhanced support ideal for positioning the breast and ensuring patient comfort without irritation or sensitization
- Strategically-placed thermoplastic polyurethane (TPU) windows allow visibility of skin and bony landmarks essential for repeatable patient position
- Tested at 6 MeV and 6 MV to demonstrate that the radiation beam can pass through treatment areas* of the bra without attenuation
- Intended for use by a single patient throughout treatment, the garment is reimbursable by insurance: All points of Velcro® attachment are indexable so patient can be custom-fit at the time of simulation and throughout treatment

*Velcro attachments, located outside of treatment area, resulted in slight attenuation at 6 MeV

Treatment Bra is available in 13 sizes; back extender and shoulder strap extenders offered for additional fitting and sizing options

Washable, reusable fitting bras provide a unique solution to properly size the patient

See VisionRT's compatibility statement on page 144.

Hip & Pelvic

Versatile, Customizable, Comfortable

Patient positioning and immobilization for treatment of the hip and pelvic region range from re-positioning to immobilization devices – all taking versatility, customization and patient comfort into consideration. Positioning for these regions can be difficult due to organ motion and patient shape.

CIVCO RT provides a variety of hip and pelvic solutions including a Carbon Fiber and MRSeries™ Bellyboard that provides maximum treatment versatility along with customized bowel displacement for patient safety. The HipFix® Baseplate and Thermoplastic System also delivers comfortable immobilization to enhance fiducial targeting.

Carbon Fiber & MRSeries™ Bellyboards

The Carbon Fiber Bellyboard assists in reducing the volume of the small bowel that is irradiated in patients undergoing treatment in the pelvic region. The contoured opening allows for displacement of the small bowel, as the central support structure assists in compressing the small bowel forward into the opening.

- Carbon Fiber model features embedded fiducial crosshair to assist as a secondary setup reference
- Lightweight, rigid and indexable
- Lower part of board is adapted to support the patient's upper legs for maximum comfort
- Soft polyethylene padding ensures a comfortable position for the head

125012	Carbon Fiber Bellyboard
126000	MRSeries Bellyboard MRSeries™
013140	Bellyboard Wall Storage

Carbon Fiber Bellyboard

MRSeries Bellyboard

Caudal Indentation [1] to relieve pressure in the genital area. **Central Space [2]** allows compression to push the small bowel superior toward the **Major Aperture [3]**.

Storage

Prone Thorax Support

The Prone Thorax Support is designed to relieve chest compression during treatments in the prone position. It can be used as a stand-alone patient support or as an option on the Bellyboard to allow large patients to be treated in the prone position.

301076	Cream
301102	Black

Contoura™ Bellyboard

The Contoura is made of carbon fiber to provide maximum treatment versatility. Customized bowel displacement can be achieved with the use of three interchangeable padded portal inserts.

- Shorter board (compared to other models) allows for additional setup flexibility for various patient lengths
- Prone-Lok™ indexable cushion or Pron-Pillo™ available for additional comfort (see page 96)

No Portal

Small Portal

MTBBCF	Contoura Bellyboard with three portal inserts

MTCB36	Pron-Pillo

Combifix™ 3 and Feetfix™ Couch Support

The Combifix 3 combines the Kneefix™ and Feetfix, providing enhanced positioning for the pelvic region and other lower extremities.

The Feetfix Couch Support may be used separately and positions the Feetfix at indexed positions, allowing the Feetfix to be tilted at four different angles. Both the Combifix & Feetfix are two and three-pin Lok-Bar indexable.

Shoulder retractors are available to pull the shoulders down during radiotherapy simulation and treatment sessions where opposed lateral fields are used in the neck area. They can attach in five positions on the Feetfix. MRSeries™

Combifix 3 Low

Combifix Storage

Feetfix Couch Support with Cushion

IMRT Reinforced Thermoplastic

Positioning Cushions

Prone-Lok™ Cushion

The Prone-Lok Positioning Cushion enhances patient comfort through its specially designed foam construction. Its contoured corners eliminate shoulder impingement. The center portal opens the patient's field of view, improving patient comfort. The Prone-Lok cushion is indexable and can be used with the Contoura™ Bellyboard. It can be easily cleaned and reused.

MTPLC01

Pron-Pillo™ Cushion

The Pron-Pillo provides comfort and stability for patients in the prone position. It can be used with the Contoura Bellyboard and can be easily cleaned and reused.

MTCB36

Dual Leg Positioner

The Dual Leg Positioner provides a quick capture of the lower legs for supine hip and pelvic treatments. The positioner is designed to hold the legs at the same level, thereby reducing rotation of the pelvis. An optional Velcro® strap secures the calves and ankles. It is indexable for enhanced reproducibility. It can be easily cleaned and reused.

MTDLI2	Standard (76 x 46 x 19 cm)
MTDLI22	Low (76 x 46 x 11 cm)

Positioning Cushions

Kneefix Indexing Holes

Kneefix™ 3

The Kneefix 3 cushion contributes to better stability and reproducibility in the supine position, regardless of the target area. It promotes patient comfort and is therefore ideal for use during lengthy procedures on rigid surfaces. The Kneefix 3 is 16 cm tall and is made of lightweight, closed cell foam that is easy to clean and is both two- and three-pin indexable. A Low Kneefix 2 (12 cm) is available for additional setup. **MRSeries™ ProtonSeries™**

301052	Kneefix 3 (Cream)
301048	Low Kneefix 2 (Black)

Kneefix 3 Elevation Blocks

The Kneefix 3 Elevation Blocks can elevate the Kneefix 3 by 5 cm. The Kneefix fits in the topside of the elevation block and will not slide off. Elevation Blocks may be stacked to raise the legs even higher. The Kneefix 3 Elevation Blocks are both two- and three-pin indexable. **MRSeries™ ProtonSeries™**

301055	Qty 1
301056	Qty 3

Feetfix™ 3

The Feetfix 3 is a universal patient support cushion for radiotherapy and diagnostic procedures and has been designed to provide comfortable positioning with enhanced immobilization. The Feetfix 3 is 16 cm tall and is made of lightweight, closed cell foam that is easy to clean. It can be used with either a two or three-pin indexable Lok-Bar™ or with the Feetfix Couch Support (page 94). **MRSeries™ ProtonSeries™**

301071	Feetfix 3 (Cream)

Patient Cushions & Positioning Aids

Comfortable, Easy-to-use, Reusable

Vac-Lok Cushions create a rigid and secure support around the patient when a vacuum is drawn through a self-sealing quick-release valve.

Vac-Lok™ Cushions

Vac-Lok Cushions create a rigid and secure support around the patient when a vacuum is drawn through a self-sealing quick-release valve. These cushions retain their shape and guarantee stability and reproducibility of the patient's position for up to six weeks once the air is vacuumed out. **MRSeries™** **ProtonSeries™**

- More rigid than previous generation (cream) bags
- Protective material coating provides greater cleanability than previous generation bags
- Attached indexing battens (on specific sizes) provide an easy method for repositioning
- Available for a span of clinical setups including head & neck, breast, pelvic & hip, and full body
- Treatment area is artifact-free with minimal beam attenuation
- Reusable for ultimate cost-effectiveness
- Available in gray nylon or clear urethane
- Cleared for use in proton therapy

Indexing battens provide an easy method for repositioning Vac-Lok Cushions

MTFA41B RediFoam, X-Large
Includes 39 x 56" (99.1 x 142.2 cm) RediFoam bag

ONLY AVAILABLE IN THE U.S.

Multi Purpose Support Cushions

Multi Purpose Support Cushions are exclusive closed cell PE foam that will not stain or absorb liquids. They are more firm than regular, coated support cushions. Five different shapes are sold separately or as a complete set, which also includes a Hand/Finger Positioner. **MRSeries™**

403024 Rectangle 30 x 24 x 5 cm

402422 15° Wedge 24 x 22 x 7 cm

402848 45° Wedge 28 x 48 x 14 cm

402820 45° Wedge 28 x 20 x 14 cm

402525 Head Support 25 x 25 x 8 cm

400006 Set of Six -

NOTE: HAND/FINGER POSITIONER ONLY AVAILABLE IN SET OF SIX (40006)

Positioning Aids

Shoulder Support Cushion

The Shoulder Support Cushion is a wedge shaped cushion designed to support the shoulders and upper body of the patient. When placed over the Posifix®-1 or -2 baseplate, the contours of the baseplate hold the cushion firmly in place.

301040 Shoulder Support Cushion

Multifix™

The Multifix is a flexible system allowing arms and legs to be fixed in straight or bent positions, using small Posicast® precuts. These precuts are easily shaped to anatomical contours and are then fixed onto the baseplate on clearly indicated positions.

- Indexable baseplate ensures a reproducible setup
- Four sets of indexing holes offer an isocentric position of the treated extremity wherever it is placed on the Multifix

107063 Multifix Baseplate, Carbon Fiber

930080 Small Multifix Posicast-Plus Microperfo Thermoplastic

See page 58 for more information on Posicast Thermoplastics.

Foam Cushions & Wedges

A full line of white foam positioning aids for comfortable patient support are available. Covered knee bolsters and wedges can be easily cleaned and re-used.

Suremark® Skin Markers

Suremark

Suremark markers are useful in distinguishing between a nipple shadow and lesion.

MTSL10	1.0 mm, Qty 110/Box
MTSL15	1.5 mm, Qty 110/Box
MTSL20	2.0 mm, Qty 110/Box
MTSL25	2.5 mm, Qty 110/Box

Suremark Tabs

Suremark Tabs maintain the advantages of the Suremark markers with an added tabbed feature.

MTSL15T	1.5 mm, Qty 110/Box
MTSL20T	2.0 mm, Qty 110/Box

Suremark Relief Tabs

Suremark Relief Tabs have a unique adhesive-free center that won't stick to sensitive areas of the skin.

MTSL25RT	2.5 mm, Qty 110/Box
----------	---------------------

Suremark Wire

Suremark Wire is used for marking scar tissue, outlining palpable nodules, moles and entry points in CT scans.

MTSLW3	0.3 mm, 336 cm
MTSLW4	0.4 mm, 336 cm
MTSLW8	0.8 mm, 336 cm
MTSLW12	1.2 mm, 336 cm

Clearline Scar Markers

Clearline Scar Markers provide outlining of scars and other areas of concern.

MTSLCL20	2.0 mm, 320 cm
MTSLCL25	2.5 mm, 203 cm

CT Mark

CT Mark new blue formulation is specifically designed for CT and will not cause artifact.

MTCTW10	Wire, 1.0 mm, 330 cm
MTCTW20	Wire, 2.0 mm, 300 cm
MTCT23	2.3 mm, Qty 110/Box
MTCT40	4.0 mm, Qty 50/Box
MTCTCR3	Cross, 1.2 cm, Qty 50/Box

Powermark™

Powermark markers maintain the advantages of Suremark markers and feature larger lead ball sizes for visibility in radiation therapy.

MTSL30	3.0 mm, Qty 50/Box
MTSL40	4.0 mm, Qty 50/Box

LiquiMark MRI Markers

A line of fiducial markers for MRI that are non-metallic, not made with natural rubber latex, and perform consistently and accurately in a variety of applications.

MTSLLM1	8 mm round, Qty 40/Box	MRSeries™
MTSLLM2	15 mm tube, Qty 40/Box	MRSeries™

Visionmark

Visionmark markers are specially formulated non-metallic markers that perform consistently and accurately in a variety of applications.

MTSLV25	2.5 mm, Qty 110/Box
MTSLV30	3.0 mm, Qty 50/Box
MTSLV40	4.0 mm, Qty 50/Box
MTSLV50	5.0 mm, Qty 50/Box

Patient Marking

Disposable Rectal & Vaginal Markers

ShadowForm® Markers are used for simulation and CT planning. They are available in Rectal and Vaginal Markers; both have flexibility. They have a T-bar handle and can easily be removed for the optional insertion of barium.

- Materials promote patient comfort and provide ease of use
- Visible on any x-Radiation Modality
- Disposable, single use only

THESE PRODUCTS HAVE NOT BEEN CE MARKED

MTZM1710	Disposable Rectal Marker, 10 cm long, Qty 10
MTZM1740	Disposable Rectal Marker, 40 cm long, Qty 10
MTZM1735	Disposable Vaginal Marker, 18 cm long, Qty 10

Spee-D-Mark™

Spee-D-Mark virtually eliminates confusion of shadows or lesions on film.

Spee-D-Mark Wings feature the advantages of regular Spee-D-Mark with the added benefit of a special "winged" design for comfortable, conforming placement.

Portal Markers

Set of marker tapes designed to outline the treatment field. This product is useful when planning multiple fields of treatment.

- Long lasting
- Comfortable
- Minimizes tattooing
- Water resistant

THESE PRODUCTS HAVE NOT BEEN CE MARKED

MTPM100	Standard, each sheet contains 8 field lines, 4 corners, 2 set-up points, 2 isocenters, 50 Sheets
MTPM150	Isocenter, 18 isocenters and 6 field lines, 50 Sheets

Fiducial Markers

Accurate target localization

Implantable fiducial markers provide a highly effective method of ensuring accurate target localization for tumors/organs that move in respect to external anatomy, as well as for the precise localization needed for stereotactic radiotherapy. CIVCO RT offers the largest selection of specially designed fiducial markers, making your target always clearly visible.

Fiducial Markers

DISEASE SITE RECOMMENDATIONS

Largest selection of specially designed fiducials includes:

- Linear gold coils with solid identifiable end points
- Linear gold coils specific for MRI and CT fusion
- Biocompatible artifact free polymer markers
- Fiducials linked at a specific distance for precise localization

Gold marker features:

- Specially knurled surface is designed to inhibit migration
- 99.9% pure gold
- Non-biological imaging characteristics make markers easier to identify

Multiple needle gauge sizes:

- 20, 19, 18 and 17 gauge needles

FusionCoil™ MRSeries™

The FusionCoil Marker images equally as well in CT as it does in MRI. It consists of an open spiral gold coil with a special biocompatible alloy core that appears as a solid black dot in MRI. This is the first of its kind, providing superior reference for image fusion as well as precise IGRT.

MTCTXFC1051820	1 x 5 mm marker	18 GA ETW x 20 cm needle	Qty 1	
MTCTXFC10201820	1 x 20 mm marker	18 GA ETW x 20 cm needle	Qty 1	
MTCTXFC10251820	1 x 5 mm marker	18 GA ETW x 20 cm needle	Qty 1	
Includes 2 markers with a 15 mm bioabsorbable spacer. NOT CE MARKED				
MTCTXFC1051825	1 x 5 mm marker	18 GA ETW x 25 cm needle	Qty 1	

FusionCoil SBRT Kit

Cartridge Kits reduce the number of needle passes and minimize the chance of Edema or Pneumothorax.

MTCTXFC001	Pre-loaded FusionCoil needle, 18 GA x 20 cm, w/ 1 x 5 mm marker, Qty 1 Pre-loaded FusionCoil cartridges, 1 x 5 mm marker, Qty 2

DISEASE SITE RECOMMENDATIONS

FlexiCoil™

The FlexiCoil Marker is a unique, non-migrating marker with solid end points. FlexiCoil provides a unique image with two nodes that clearly define the end points.

MTCTXFC09101820	0.9 x 10 mm marker	18 GA ETW x 20 cm needle	Qty 1		
MTCTXFC12101720	1.2 x 10 mm marker	17 GA ETW x 20 cm needle	Qty 1		
MTCTXFC12201720	1.2 x 20 mm marker	17 GA ETW x 20 cm needle	Qty 1		

FlexiMarc™ G/T

The FlexiMarc G/T Marker provides distinctive non-biological projection with easily definable nodes. The gold nodes are connected with a fine titanium line, which creates the optimal performance characteristics and visualization.

MTCTXGT10182010	1 x 3 mm markers 10 mm spaced	18 GA ETW x 20 cm needle	Qty 1		
MTCTXGT10182020	1 x 3 mm markers 20 mm spaced	18 GA ETW x 20 cm needle	Qty 1		

Optimized for CyberKnife® prostate treatments.

Coupled Markers

Coupled Markers are 3 mm long with either 0.8 or 1.0 mm diameters attached at a fixed distance, 20 mm apart from center to center. They are secured with a sterile, tissue-absorbable material. This ensures that the markers are implanted at a known distance for calculating precise localization.

MTNW887709	0.8 x 3 mm markers	18 GA ETW x 20 cm needle	Qty 2			
MTNW887710	1 x 3 mm markers	17 GA ETW x 20 cm needle	Qty 1

"We could not reach the level of accuracy required for SBRT patients without using our Protura system. It is especially important in stereotactic treatments, where the highest level of positional accuracy is needed due to tight margins and proximity of critical structures. Because of the ability to make rotational adjustments in patient positioning, the system allows for treatment of more than one lesion simultaneously, which is easier for the patient as well."

**Joseph Bargellini, MD, Medical Director of Radiation Oncology
at Diebold Family Cancer Center, New Milford, Connecticut**

Protura™ Robotic Patient Positioning System

Integrated, Accurate, Efficient

The Protura Robotic Patient Positioning System provides sub-millimeter positioning accuracy to reduce OAR dose and improve PTV dose accuracy.

Protura positions the patient with 6 degrees of freedom corrections from outside the treatment room and is the ideal solution for streamlining throughput and enabling more accurate treatments.

Contact CIVCO RT to learn more about the clinical benefits of Protura.

Protura™ Robotic Patient Positioning System

Compatible with Varian Trilogy® and Clinac® Series; Elekta Infinity™, Synergy® and Versa HD™; Siemens TXT pedestals
Additional Radiotherapy System Interfaces include Vision RT, Align RT® and TheraView.

Integrated

Linac system interfaces with Varian and Elekta to automatically transfer all 6 shift values to Protura Software

Integrated with CIVCO RT's Universal Couchtop™ Long Extension and comprehensive motion management solutions

Accurate

Assures precise patient alignment with a built-in redundant sensor system

No external camera system is required

Dynamic pivot point assures all rotations about isocenter

Sub-millimeter accuracy from advanced robotic technology

Internal auto-calibration

Supports multiple coordinate systems if needed

Efficient

Remote positioning, eliminating need to re-enter the treatment room to align patient

Stores historical data for easy setup

In-room touch screen

Fast initialization, optimized to handle rigors of a busy clinic

Powered via a standard outlet, no battery to charge

Translational Ranges

Rotational Ranges

Technical Specifications

System Height	15 cm (5.9") in load position; 20 cm (7.8") in treatment position
System Weight	90 kg (198 lbs)
Resolution	0.1 mm; 0.1°
Speed	Slow, Medium, Fast (up to 16 mm/second)
Maximum Patient Load	200 kg (440 lbs)

Contact CIVCO RT to learn more about the clinical benefits of Protura.

Protura™ Workflow

1 Load patient onto Protura, set up for treatment and align patient to isocenter

2 Image patient with preferred IGRT method

3 Remotely position patient with 6 degrees of freedom

4 Perform treatment

5 Lower the Protura and pedestal, unload the patient

Extensions to Treat Many Disease Sites—No Overlays Needed!

CIVCO RT's Solstice™, Type-S™ and Posifix® Thermoplastics, ONEBridge™, Body Pro-Lok™ Bridges, Respiratory Belt and many additional solutions attach directly to the Universal Couchtop.

See pages 11 – 14 for details on UCT LE.

MRSeries™

Accurate transfer from MR imaging to treatment

MRSeries products are intended for use in the MR environment. Always refer to product labeling to identify whether a device is MR Safe or MR Conditional.

Look for the MRSeries™ label throughout the catalog for more information on these solutions.

Universal Couchtop™ MRI Overlays

Universal Couchtop MRI Overlays are made from fiberglass and feature Prodigy™ 2 indexing in 7 cm increments. Universal Couchtop is available on most major CT, MR, Proton and Linac models to provide seamless transfer from imaging to treatment.

- Three-Pin Lok-Bar™ offers the option to use existing MR-compatible devices by indexing them to the overlay
See pages 8–18 for additional information on Universal Couchtop.

ProtonSeries™

Confident Proton Therapy Without Compromise

ProtonSeries family of products meet the unique requirements of proton therapy and are intended for use in a proton environment.

Look for the ProtonSeries™ label throughout the catalog for more information on these solutions.

Universal Couchtop™ Long Extension

The Universal Couchtop™ is a modern and comprehensive solution for enabling advanced treatments in your clinic. Specifically designed to answer the demands of Proton, the Universal Couchtop Long Extension contains no rails or junctions in the treatment area to help facilitate better dose delivery and target coverage.

- Homogenous design for consistent treatment planning
- Utilizes Prodigy™ 2 indexing at 7 cm increments
- Low attenuation and surface dose
- Self-locking extension seam located outside of treatment field
- Compatible with many CIVCO RT positioning and immobilization devices (see page 131)
- 5 Year Warranty

ProtonSeries™

A universal platform for immobilization & positioning

ProForm™ Head & Neck Immobilization

The Universal Couchtop™ ProForm™ Head & Neck Extension features geometry that allows for direct access to effectively treat CNS patients. ProForm accepts a dedicated thermoplastic mask designed to meet the unique requirements of proton therapy.

- Homogeneous treatment area and soft gradient edges reduce beam degradation
- Head & Neck area provides fixed points that allow repeatable positioning and security of the AccuForm™ Cushion
- Thermoplastic mask attaches with a smaller profile frame and pin similar to CIVCO RT's Type-S™ system

Quality Assurance

Iso-Align™

The Iso-Align is a multi-purpose quality assurance device designed to assist in the routine secondary verification of linear accelerators and room lasers. The Iso-Align accommodates a convenient film pack for radiation and light field verification. The Iso-Point Rotational Runout Tool on the Iso-Align allows you to accurately and easily verify the mechanical isocenter of the gantry. In addition, the Iso-Align can be used to verify multiple aspects of linear accelerators and room lasers, including:

- Alignment of all lasers
- Collimator and table/couch rotational angle readout accuracy
- Light field alignment and jaw readout accuracy
- Mechanical isocenter of collimators and treatment tables/couches
- Optical Distance Indicator (ODI) accuracy at various distances
- Port film grid alignment
- Radiation and light field coincidence at various gantry angles
- Radiation isocenter of collimators, gantries, and treatment tables/couches

MTIAD1

TG66 CT Simulation Laser QA Device

This unique device is used to complete secondary specific quality assurance checks of CT scanners and room lasers, in accordance with the recommendations of AAPM's TG66. Easily indexed to the CT table, this clearly-marked tool helps perform an array of important QA checks, including:

- Alignment of gantry lasers
- Spacing and orientation of room lasers
- Confirmation of a level and orthogonal table orientation

MTTG66 Requires (Qty 2) Two Pin Lok-Bars™

Accessories & Aids

Testicle Shields

Testicle Shields are designed to reduce scatter radiation to the testicles. Each unit is cast to provide a lead wall with a thickness of ½" (1.27 cm) and features an open sector to allow comfortable attachment to the patient. All surfaces are coated with a polyurethane paint.

The shield's top and bottom sections are secured with either the two included rubber straps or nylon tape. When using the testicle shield stand, no straps are needed.

MTTSS Small, Qty 1

MTTSM Medium, Qty 1

MTTSL Large, Qty 1

Testicle Shield Stand

This adjustable stand offers increased patient comfort while raising or lowering the shield. A manual adjustment knob allows for easy vertical positioning from 1–10" (2.54 – 25.4 cm). The stand can be used for anterior and posterior treatments.

THIS PRODUCT HAS NOT BEEN CE MARKED

MTTSST2

Grip Rings™

Grip rings offer patients an extra measure of security and comfort. The tough blue vinyl is smooth and easy to wipe clean with most antibacterial solutions. Grip Rings are sold individually and in sets.

MTVIP1664 Set of 4 rings (3, 4.25, 6 and 8" inside diameter)

Accessories & Aids

Bolus

Bolus is made from a solid, tissue-equivalent gel. It will not sag, deform or run. Bolus is available "skinless", or encased in a tough layer of thin plastic "skin".

PRODUCT CODES ARE REGISTERED BY COUNTRY. PLEASE CONTACT YOUR LOCAL SALES REPRESENTATIVE FOR APPROPRIATE PRODUCT CODE.

ALRA Skin Care

This special line of skin care products is designed to provide gentle, effective care for patients undergoing radiation therapy.

The moisturizer contains aloe vera, lanolin, Vitamin E, collagen and allantoin. It is fragrance-free. Unlike regular antiperspirants, the ALRA deodorant stick contains no metallic ingredients that can interfere with radiation. It contains the natural astringent cypress oil and the natural bactericide lichen. Your patients can order ALRA products directly from CIVCO RT (North America only).

MTVIP40

Digital Level

The Digital Level provides a digital readout to a tenth of a degree.

MTDROL

Accessories & Aids

Calipers

Body Calipers can be used for tabletop distances to determine central-axis and off-axis measurements. The reversing caliper orientation assists in determining separations such as laterals, obliques and off-table measurements. The wide base ensures perpendicularity to tabletop. A color-coded scale on both sides eliminates confusion with scale orientation.

It is made of precision-machined aluminum with a gold-tone finish. Components are hand-tapped, counterbored and assembled with steel screws for strength and stability. The easy-to-read screen printed scale is protected from wear by a recessed sliding scale indicator.

Air Sampling

CIVCO RT offers one-week rentals on OSHA approved air sample pumps and filters. Simply conduct an eight-hour sample according to the instructions, then ship the pump and filter back to CIVCO RT. A written analysis will be sent back in three to four weeks.

ONLY AVAILABLE IN THE U.S.

AIRTEST

Wipe Test

The convenient mold room wipe test includes wipes, sample containers and a test area template. Simply conduct the test according to the instructions and return the sample to CIVCO RT. In three to four weeks, a written analysis will be available of both lead and cadmium levels to determine the effectiveness of clean-up procedures.

ONLY AVAILABLE IN THE U.S.

WIPETEST

Mobile Accessory Cart

This accessory cart has been specially designed to hold a wide variety of patient positioning and fixation devices. The cart can hold up to 300 lbs (135 kg) and measures 40⁵/₈ x 20 x 37¹³/₁₆" (103.2 x 50.8 x 96 cm). An optional storage bin is available for storing smaller items.

VisionRT Compatibility

visionrt | COMPATIBLE

Type-S™ Thermoplastic Style 18 Open Face Mask & Solstice™ ClearVision™ 2 Open Face Masks

- Vision RT is unable to comment on, nor make claims, about the immobilization rigidity or patient alignment reproducibility when using this mask
- Compatibility is subject to users following CIVCO RT guidelines for forming open masks in conjunction with Surface Guided Radiotherapy Systems, and subject to users following Vision RT's guidelines for drawing Regions of Interest for use in SRS with Open Masks
- The mask vendor is responsible for ensuring that users are in receipt of guidelines for forming masks for use in conjunction with Surface Guided Radiotherapy Systems. Vendors may change their guidelines from time to time without reviewing these changes with Vision RT. Vision RT is not liable for misuse of masks
- Vision RT makes no comment on, and is not liable for, suitability or otherwise of masks for SRS or any other procedure
- Purchasers are responsible for making their own choices as to the masks selected by them

Chabner XRT® Radiation Bra

- Vision RT is unable to comment on, nor make claims, about the immobilization rigidity or patient alignment reproducibility when using this bra
- Compatibility is subject to users following CIVCO RT guidelines using the bra in conjunction with Surface Guided Radiotherapy systems, and subject to users following Vision RT's guidelines for drawing Regions of Interest for use with breast cases
- CIVCO RT is responsible for ensuring that users are in receipt of guidelines for using the bra for use in conjunction with Surface Guided Radiotherapy systems. Vendors may change their guidelines from time to time without reviewing these changes with Vision RT. Vision RT is not liable for misuse of the bra
- Vision RT makes no comment on, and is not liable for, suitability or otherwise use of bras for breast procedures

Reusable no-sterile Bolus with Skin

- Vision RT is unable to comment on, nor make claims, about the Dosimetric properties or clinical effectiveness of the bolus itself or patient alignment reproducibility when using the bolus
- Compatibility is subject to users following your guidelines for usage of this bolus with Vision RT's SGRT system, and subject to users following Vision RT's guidelines for drawing Regions of Interest for use in Breast treatments
- The bolus vendor is responsible for ensuring that users are in receipt of guidelines for using bolus in conjunction with Vision RT's SGRT system. Vision RT is not liable for misuse of bolus
- Vision RT makes no comment on, and is not liable for, suitability or otherwise usage of bolus for Breast or any other procedure
- Purchasers are responsible for making their own choices as to the bolus selected by them

Ordering Information

Placing an Order in North American & International Markets

Toll-free within the U.S. and Canada: 800.842.8688
Direct Dial: +1 712.737.8688
Facsimile: 877.613.6300
Direct Sales Email: order@CivcoRT.com
Distributor Sales Email: distorder@CivcoRT.com
OEM Email: oemorder@CivcoRT.com

Office Hours

Monday – Thursday, 7:30 a.m. – 5:00 p.m.,
Friday 7:30 a.m. – 4:00 p.m. U.S. Central Time.
To place an order after business hours, leave a voice mail telephone message, and a customer representative will notify you on the next working day for order verification.

Payment Terms

Net 30 days for customers with approved credit inside the United States and Canada. All orders must be paid in U.S. dollars. Orders from outside the U.S. require advance remittance by wire transfer. Visa, Mastercard, Discover and American Express are accepted. Alternate International payment terms are considered upon request. Delinquent accounts are subject to suspension until payment arrangements are made.

Shipping Terms

F.O.B. point of origin. Freight is prepaid and added to the invoice. CIVCO RT will select the most efficient method of shipment, unless a specific carrier is requested. Overnight and rush shipments are provided for an additional fee.

Pricing and Discounts

Prices are subject to change without notice. Quantity discounts and blanket order pricing are available. Contact a customer service specialist for details. A \$50 minimum purchase is required with each order.

Sample Requests

Free non-sterile samples are available on selected products. Samples are provided for sizing and fit purposes only and should not be used in clinical procedures.

Return Policy

If you are dissatisfied with a product, contact a CIVCO RT customer service specialist for advance return authorization and instructions. Returns should be arranged within 30 days of the invoice date and are subject to a twenty-five percent (25%) restocking fee. Returned goods must be in original packaging and in new condition. CIVCO RT reserves the right to refuse unauthorized returns.

Claims, Shortages or Damages

Open all shipments immediately and inspect for concealed damages, shortages or errors. If goods were damaged in shipping, please hold the package and request a carrier inspection and claim form. Please report any shortages or errors to your CIVCO RT customer service specialist within 30 days of receipt of shipment to arrange an authorized exchange.

Product Warranty

Please review CIVCO RT's Warranty Statement in the www.CivcoRT.com "About Us" section.

Quality Standards

CIVCO RT is registered to ISO 13485:2003 Quality Standards. Note: Not all products listed are available in every market. Please contact your account representative or local distributor for availability.
